

BOTH HOUSES ACT.

CONFERENCE REPORT ON VOLUNTEER BILL RUSHED THROUGH.

WAS PASSED WITHOUT DEBATE.

TO CONSIDER ARMY REORGANIZATION BILL TO-DAY.

House Will Take It Up at 10 O'clock This Morning—Senate Held a Secret Session—Senator Wallhall's Death Announced.

Washington, April 22.—The house today displayed its enthusiasm for the war upon which the country has entered, by rushing through without debate the conference report on the bill authorizing the president to call out the volunteers, and agreeing, by unanimous consent, to meet at 10 o'clock to-morrow to take up the consideration of the army reorganization bill. The passage of the latter bill is considered imperatively necessary by the war department. The Patterson-Carmack contested election case was disposed of, the sitting member, Mr. Carmack, being given the seat by a vote of 136-118. Several Republicans voted with the Democrats, and many declined to vote. The Democrats were very bitter in their denunciations of Mr. Patterson, who belonged to the gold wing of the party. Both the contestant and contestee addressed the house in their behalf.

Mr. Patterson read his speech, which was carefully prepared. It elicited frequent applause from the Republican side of the house. He sketched the history of the issue which had divided the Democratic party, and explained his attitude toward the Chicago platform. He had believed, he said, that the gold standard was necessary to the maintenance of the public credit and the national honor. He believed the triumph of free silver would be a catastrophe to the country, and so believing, had placed fealty to the country above party fealty. He could not surrender his convictions, and he was willing to take the consequences. Those who were so anxious to retire him to private life, he said, were not more anxious than he was willing to allow the future to vindicate his course. He who held first to duty as God gave him light, he believed, did not live in vain.

Mr. Allen, Democrat, of Mississippi, who followed Mr. Patterson, said he had never heard a more glowing eulogy to the patriotism and statesmanship of any man than Mr. Patterson had just delivered upon himself.

Mr. Carmack, the sitting member, closed in his own behalf. His denunciation of Mr. Patterson was scathing. He declared that the contestant was an object of pity rather than contempt as he descended to the depths of infamy. But a few years ago, said he, Mr. Patterson had stood upon this floor denouncing slanders which he now repeated amid the plaudits of those whom he then opposed.

Messrs. White, Republican, of North Carolina, and Cochran, Republican, of New York, also spoke on the election case. Before the vote was taken Mr. Hull, Republican, of Iowa, chairman of the committee on military affairs, asked unanimous consent that the house meet at 10 o'clock to-morrow in order to expedite the passage of the army reorganization bill.

He read a telegram just received from the secretary of war, which stated that the prompt passage of that bill was regarded as a matter of supreme importance. The bill was so clearly related to the volunteer army bill, he said, that the passage of both was an urgent necessity. There was no objection and the order was made. The vote was then taken on the contested election case, first on the minority resolutions declaring the sitting member, Mr. Carmack, entitled to the seat.

The minority resolutions declaring Mr. Carmack, the sitting member, entitled to the seat, were substituted for those of the majority—129 to 128. The resolutions were then adopted by a vote of 129 to 118.

The Democrats greeted the announcement with a great demonstration of approval. Six Republicans voted with the Democrats, but quite a number refrained from voting.

The senate resolutions announcing the death of Senator Wallhall, of Mississippi, were presented, together with the invitation of the senate requesting the house to attend the funeral in a body. The resolutions were adopted and the invitation was accepted on motion of Mr. Allen, of Mississippi. The speaker appointed Messrs. Allen, Fox, Henry, Love, Sullivan and Williams, of Mississippi; Bartlett, of Georgia; Spalding, of Michigan, and Johnson, of Indiana, to attend the funeral. Then, at 5:30 p. m., as a further mark of respect, the house adjourned until 10 o'clock to-morrow.

SENATE IN SECRET SESSION.

Conference Report on Volunteer Bill Agreed To—No Business in Open Session.

Washington, April 22.—During the brief open session of the senate to-day the formal announcement of the death of Senator Wallhall, of Mississippi, was made and arrangements were perfected, so far as the senate is concerned, for the funeral ceremonies, which are to be held in the senate chamber to-morrow at noon. A secret session of two hours was held during which the conference report on the volunteer bill was agreed in, but no business was done in open session.

At 2 o'clock the senate resumed legislative business in open session.

Mr. Money, of Mississippi, officially announced the death of Senator Wallhall. "It is my sad duty," said he, "to announce to the senate that at 5:15 p. m., yesterday, April 21, Edward Cary Wallhall, the senior senator from Mississippi, departed this life at his residence in this city. This distinguished soldier, this wise statesman, this courtly gentleman has left behind him a record of good deeds well performed. It is not my purpose at this time to present an extended eulogy of his life and character, but at some future day I will ask the senate to pay such tribute to his memory."

Mr. Money then offered the usual resolution expressing the regret of the senate at the death of Senator Wallhall and directing the vice president to appoint a committee of nine senators to represent the senate at the funeral. The resolution was adopted

HAWAII MAY BE SEIZED.

Senator Davis Believes Strategic Importance of the Islands Would Justify It.

Washington, April 22.—Members of the senate committee on foreign relations are generally without information as to the plans of the administration in Hawaii, but some of them endorse the idea of securing the Pacific islands by seizure at this time in view of their strategic importance.

Senator Davis, chairman of the committee, is among those who hold this view. He said to-day that he considered that the United States would be entirely justified in taking the islands in case of war as a "straw man," he said, "would be necessary for our own defense and would be justified in the seizure at such time to prevent their falling into the hands of our enemies, to whom they would be invaluable. What is to prevent Spain's sending a cruiser to Honolulu and seizing the country together with our property interests there, including our coal, of which I understand we have quite a supply in the islands? Furthermore, there are in Hawaii many American citizens whose interests it is necessary we should protect. For these and other reasons I should endorse the taking possession of the islands by the United States in time of war with another country into whose hands they might fall. We are of course now that the Hawaiian government is friendly to annexation, so that acquisition by this means would not be so violent a proceeding as it might seem under other circumstances."

It is held that in case possession were acquired in this way there would be no necessity for confirmatory action by congress.

San Francisco, April 22.—Advices from Honolulu, under date of 14th inst., state a rumor that Minister Sewell and Admiral Miller will take formal possession of the islands in the name of the United States as a coasting station on the 15th. It was impossible to confirm the rumor before the steamer Rio Janeiro left Honolulu.

POPULISTS LACKED POWDER.

That is Why the Kansas Officials Delayed the Firing of a National Salute.

Topeka, Kas., April 22.—(Special.) News finally reached the Populist administration at the state house about 11 to-day that a salute to war exists between the United States and Spain, and in order to let the people of Topeka know that they knew it the state officials ordered the adjutant general to fire one salute at noon. The old cannon was run out of the shed and everything was placed in readiness to fire the salute at high noon. Just before the shot was to be fired some of the officials concluded to go to the city to get some powder. They could not find any and did not get back to town until 2:30. An old shell was procured from a nearby blacksmith shop, and a salute was fired anyhow.

At 3 o'clock a national salute of twenty-one guns was fired when the flag was run to the top of the flagpole on the state house dome.

BONDS FOR SCHOOL FUND.

Of Lincoln Township, Reno County, \$10,000; of Junction City, \$4,000; of Winfield, \$2,000.

Topeka, Kas., April 22.—(Special.) The state school fund commissioners to-day purchased \$10,000 of bonds from Lincoln County, \$4,000 of bonds from Junction City municipal bonds and \$2,000 of Winfield city bonds. There will be no more purchases made now for the present. The commissioners will save up enough money to purchase the next lot of bonds to be issued in July. They now have \$200 in cash and said they will get enough in to take up the state bonds without any trouble. The commissioners have announced they will purchase \$10,000 of bonds during the month of July. They are also to buy \$200 of bonds of Rock county refunding bonds.

Some of the counties which have more money than they know what to do with will likely insist on taking up bonds held by the state before they fall due. The law gives them the right to do so. Superintendent Stryker says a number of counties have written in notifying him that they propose to pay off their bonds on July 1. Some of the bonds, he says, run for five and six years yet.

CANDIDATES AT EMPORIA.

Gubernatorial and Congressional Aspirants Attend Fourth District League Meeting.

Emporia, Kas., April 22.—(Special.) The Fourth congressional district Republican League met here this evening and was the most enthusiastic meeting that has been held in Emporia in years. The opera house would not hold the crowd. Addresses were made by the candidates for the governor and congressmen of this district. The candidates in attendance were Hood, Funston, Seaton and Hessing; gubernatorial candidates were: W. A. Madison, of Lyon county; C. A. Sawyer, of Chase county; D. P. Borchert, of Lyon county; E. L. Kramer, of Butler county; G. L. Martin, of Woodson county; Howard Gordon, Greenwood county; A. T. Byers, of Morris county; Sam Weaver, Coffey county.

Overmyer Wants to Go to Congress. Topeka, Kas., April 22.—(Special.) David Overmyer will use what influence he has to get the Pope to concede to the Democrats gubernatorial candidates in the fusion arrangement made this fall. He wants that job himself, if the Democrats get that job, he stands a chance of being nominated. Overmyer is laying his plans accordingly. He has given it out that Jerry Borlin does not start very well with the Pop masses. They don't hear him as much as they used to. Overmyer promises to turn loose frequently if he succeeds Borlin, but the chances are that he will never have an opportunity.

Fusion Scheme for the Fourth.

Topeka, Kas., April 22.—(Special.) The Populist state committee and the Democratic leaders who favor fusion have hit upon another scheme to solve the difficulty in the Fourth district. It is to have John Madden, Populist, and H. S. Martin, Democrat, run together. Madden is a member of J. S. Johnson, of the race, and make Overmyer, of Peabody, the fusion nominee. Madden has been appointed to sound both Madden and Martin in the proposition.

Look Out for Leedy's "Hold Game."

Topeka, Kas., April 22.—(Special.) G. C. Clemens, supreme court reporter, says the Leedy must play a hold game as a war governor. If he does this Clemens says Leedy will lose in the future, otherwise he will drop into political oblivion.

Turner Made Live Stock Inspector.

Topeka, Kas., April 22.—(Special.) E. C. Turner, of Marysville, Kas., was appointed state live stock inspector by Governor Leedy. He will succeed the late Mr. Turner, who died of cholera. Turner will be stationed at Amarillo, Tex.

State Oil Inspector's Mite.

Topeka, Kas., April 22.—(Special.) State Oil Inspector Charlton Looney turned over to the state treasurer \$27 for the month of March. This makes \$220 that he has turned in during the past year.

IT FINDS APPROVAL.

AMERICA'S MASTERLY STROKE IN DIPLOMACY.

PLEDGE TO NOT PRIVATEER.

VERY SATISFACTORY TO INTERESTS OF THE POWERS.

Places Spain on the Defensive and She Must Repeat These Assurances or Alienate the Friendship of Europe.

[From Yesterday's 7:30 A. M. Extra.]
New York, April 22.—A dispatch to the Tribune from London says: The announcement that the United States, in the event of hostilities, will not resort to privateering and will be governed by the four rules of the declaration of Paris, is considered a masterly stroke in diplomatic circles. While English sympathy has been with America from first to last, Spain has gained some tactical advantage, as negotiations have proceeded. The point has been scored, not by many, but by a few English journals that while Spain has made a series of concessions to America, congress has not reciprocated her to fight. All the continental journals have agreed in describing the negotiations as one-sided, with Spain in the position of offering one sacrifice after another without appreciating American opinion. It was important that the state department, while justifying war on humane principles, should restrict the area of disturbance as much as possible and guarantee security for neutral commercial interests.

This has been done by the official announcement from Washington that the government will adhere to the principles of the declaration of Paris of 1856. Nothing could be more satisfactory to English, German and French commercial interests. It is a pledge of the United States that it will observe the four rules of the declaration of Paris, discontinue privateering, protect neutral goods under any flag, and the enemy's goods under a neutral flag, with the single exception of contraband of war, and recognize the necessity of a complete cessation of hostilities in order to render these findings. The four pledges will be the safeguards of European commerce during the impending war.

So far as the American practice is concerned Spain will be on the defensive. She will be compelled to repeat these assurances or else alienate European sympathy. The judgment expressed in diplomatic circles is that the state department has adopted a course which will embarrass Spain, the settlement of diplomats and mercantile classes of England and the continent and strengthen the position of the United States. Every one of the four rules of the declaration of Paris is in favor of America in the event of hostilities. Diplomatic circles are of the opinion that America has nothing to lose and much to gain from the abolition of privateering and the protection of neutral commerce and private property under any flag, and the establishment of the principles that the Spanish West Indies will be made effective. It would be to the manifest advantage of the United States if both belligerents were under obligations to respect the declaration of Paris. The state department, by taking high ground in this respect, will have Spain to follow it. If Spain draws back owing to a wanton desire to capture and destroy private property at sea, it will be an offense against the commercial interests and moral opinion of Europe.

This is the opinion of diplomats, members of parliament and representatives of mercantile England, and they sincerely notwithstanding Mr. Balfour's non-committal reply in the commons, nothing can be plainer than the fact that the United States will not permit the Spanish West Indies will be made contraband of war, because obviously designed for use of the fleet, hope that the announcement of the department in the event of hostilities will be followed by the Spanish West Indies. It cannot be doubted that the adherence of the United States to the declaration of Paris will strengthen English feeling in favor of America and greatly impair the anti-American sentiment prevailing on the continent. It will be an appeal to self-interest of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it. The declaration of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it. The declaration of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it.

Mr. Balfour only needs an assurance of this kind in order to authorize a rigorous enforcement of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it. The declaration of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it. The declaration of the neutrality acts, which will shut the Spanish fleet out of British coaling stations and cripple it.

THIRTEENTH COMMENCEMENT.

Thirteenth Pupils in the Class and the Superintendent's Charge.

Independence, Kas., April 22.—(Special.) The thirteenth annual commencement exercises of the Independence high school took place in the opera house here to-day, before a large audience. This was the thirteenth commencement to be held in the school and this is the thirteenth year of Superintendent Neese's connection with the schools of this city. The following is a list of the graduates: Maude Sevier, Allen Young, Cynthia Stewart, Karl White, Jennie Gottlieb, Ewe Dollinger, Jennie Jefferson, Charles Jones, John Nevin, Rachel Pugh, Elmer Page, Louella Blosser, and Edward White. Each one delivered an oration. The diplomas were presented by Mrs. Lillie E. Guernsey, secretary of the board of education, and several pieces of music were rendered during the exercises.

Veteran Dies at the Age of 93 Years.

Topeka, Kas., April 22.—(Special.) Grandpa Reed, the oldest veteran at the Dodge City Soldiers' home, died a few days ago at the age of 93 years. He was a soldier in the Mexican war. He dropped dead while drilling. His officers of the home were greatly surprised when they searched his pockets and found \$90 in gold in them. The old warrior is survived by an Indian wife who is 90 years old.

BY FORCE OF ARMS.

POOR UNHAPPY CUBA.

When a man with a deadly weapon in his grasp says "Halt!" it means something.

When a man with a deadly weapon in his grasp says "Halt!" it means something. When a mighty nation equipped with all the munitions and armaments of war says "Halt!" it means more; but it means most of all when all-powerful and benign Nature raises her invincible forces to shield and protect the sick and suffering.

Poor, wretched, unhappy Cuba is not more to be pitied nor in greater need of help than the ten thousand ailing, miserable, discouraged Americans to whom these words are addressed. But there is

ical Discovery' and wrote to you for advice. I have taken Dr. Pierce's Golden Medical Discovery and I saved my life. I felt so sick when I wrote to you that I thought I would not live the winter through. In the morning I raised an awful lot and would split all the time and had pains in my chest. My bowels would not move more than once or twice a week; my strength was nearly gone; I could not do a whole day's work. Now my bowels are regular every day and I feel no more pain in my chest. Feel a great deal stronger. I am working hard every day, driving a team in the woods, and I owe my thanks to Dr. Pierce's Golden Medical Discovery. I know it saved my life. I cannot praise it enough. I am proud to tell my friends what cured me."

When a man's liver is out of order he is ripe for almost any disease that happens along. His entire constitution is in a state of receptivity and is ready for contagion of any description. The "Golden Medical Discovery" is the best of all known liver invigorators. It will put the latest of livers on a lobe in no time. It makes your liver

a mighty power of nature concealed yet ever active and forceful in that wonderful "Golden Medical Discovery," which has saved a hundred thousand Americans from a death by slow, lingering, wearing, wasting, inexorable disease.

"How has this been done? Was it a miracle? Was it an accident, that men who seemed to be slowly yet surely dying of wasting lung affections, and women with broken-down nervous systems, and shattered frames apparently beyond the reach of help, were restored to activity and strength?"

No, it was not a miracle except as Nature herself is miraculous when her forces are guided and brought to bear by one who has studied them through a long lifetime of experience, and learned to interpret her marvelous manifestations and adapt them to human needs. Dr. Pierce, the discoverer of this unparalleled medicine, has been for thirty years a graduate physician and educated specialist in diseases of the nutritive system. It was the result of careful, patient, scientific research, and no hap-hazard finding, that this extraordinary "Discovery" was brought to light, for the benefit and rescue of mankind.

"What does it do? How does it do it?" Let the first question be answered by the facts. Let those speak who know.

"I think of a man, father of a family, with work to do in this world; full of hope and courage and ambition, suddenly discovering that the health on which he had depended as the basis of all his hopes and achievements in life, is beginning to desert him and that the constitution of God's living, inefficient creature, incapable of going forth like a man to his daily toil, bound down and fastened as it were by chains of disease that cannot be shaken off.

This man is an actual character. Let him tell his own story: "I was a coal miner, of Boylston, Worcester county, Mass. (Sawyer's Mills), writes: "I feel it my duty now to write to you to tell you of the great benefit I have received. About a year ago I was taken with a bad cold which settled on my lungs. The doctor got me up, but I was in consumption and could not get well. I took a course of Cod Liver Oil and it did me no good. After taking it four months I heard of your 'Golden Medical

Discovery' and wrote to you for advice. I have taken Dr. Pierce's Golden Medical Discovery and I saved my life. I felt so sick when I wrote to you that I thought I would not live the winter through. In the morning I raised an awful lot and would split all the time and had pains in my chest. My bowels would not move more than once or twice a week; my strength was nearly gone; I could not do a whole day's work. Now my bowels are regular every day and I feel no more pain in my chest. Feel a great deal stronger. I am working hard every day, driving a team in the woods, and I owe my thanks to Dr. Pierce's Golden Medical Discovery. I know it saved my life. I cannot praise it enough. I am proud to tell my friends what cured me."

When a man's liver is out of order he is ripe for almost any disease that happens along. His entire constitution is in a state of receptivity and is ready for contagion of any description. The "Golden Medical Discovery" is the best of all known liver invigorators. It will put the latest of livers on a lobe in no time. It makes your liver

lively and your blood pure. It is the best of spring medicines.

"It affords me pleasure to testify to the remarkable curative power of Dr. Pierce's Golden Medical Discovery," writes Mr. Frank A. Stariz, of Fayetteville, Fayette county, Tex. "I was severely afflicted with trouble in my lungs—spitting up blood, and was so weak I was unable to continue my work. I tried several remedies which gave me no relief, and I had commenced to think there was no hope for me. Dr. Pierce's Golden Medical Discovery was recommended to me, so I tried it and began to improve at once, and was soon able to resume work. I consider it a wonderful medicine. You are at liberty to use my name if you desire."

"Think of a woman who longs to be a source of help and encouragement to her husband and children; who feels that her usefulness in life, her power for good, her attractiveness, in fact, her very womanliness itself depends upon a cheerful, capable, healthy constitution, finding all these things gradually ebbing away; and she a nervous, fretful, worried, despairing wreck of what should be a happy woman.

This picture is indeed a true portrait; behold it painted in the colors of actual life by the woman herself, who writes: "I write to let you know the great benefit I have received from your medicine and the self-treatment at home which you advised for my case," writes Mrs. W. M. Satterly, of Richmond, Toga county, N. Y. (Dr. C. Box 40). "When I first wrote to you I was completely discouraged. Was in pain all the time, could not lie in bed on account of severe, sharp, cutting pains in my back and right hip. Had had pain all through the lower part of my body, and my elbows hurt me so much I could not sleep. My baby, my skin was dry, harsh and sore, and hung like sacks on my arms. My husband called the doctor, and he said it was weakness, and my medicine did me no good. I kept getting worse and weaker. It seemed I should go crazy. One day I picked up a paper and saw your advertisement. My husband had no faith in your medicines; he said that the persons who gave the testimonials were all so far away, but I

notably at the South, is reflected in temporarily smaller crops of wheat, corn and flour. The total shipments of wheat (flour included) this week aggregate 3,223,000 bushels in 1898, as against 2,827,000 bushels in 1897, 1,654,000 bushels in 1896, 2,471,000 bushels in 1895 and 2,727,000 bushels in 1894.

AN EX-EDITOR FINED.

Used Mails to Defraud Railroad Companies Out of Passes—Sold the Passes.

Topeka, Kas., April 22.—(Special.) E. L. Shelton, who used to be editor of the Illustrated Weekly in Topeka, was to-day fined \$50 by United States District Judge Foster for using the mails to defraud railroad companies out of passes—sold the passes.

It is claimed that Shelton defrauded nearly every Western road out of transportation. He would make application to the general offices for transportation on account of some paper, often one with which he had no business connected, and he secured the pass he would dispose of by sale.

His operations extended over several years, and the railroad officers themselves do not know to what extent Shelton imposed upon them. He was indicted on account of attempting to secure a pass from the Denver & Rio Grande railroad.

Pay Up Their Back License.

The Acta Life and Accident Insurance Company is the first of the four combination life and accident companies to come up for back license.

Topeka, Kas., April 22.—(Special.) The Acta Life and Accident Insurance Company is the first of the four combination life and accident companies to come up for back license. This company had been in default of its license for some time, and it is now required to pay up its back license. The company had been in default of its license for some time, and it is now required to pay up its back license.

Lecture for the King's Daughters.

The King's Daughters of the Summit Street Methodist Episcopal church have secured Professor Killon, of Kansas, to give a stereopticon lecture this evening at the church, 1822 Summit street. The subject of the lecture is "The Footsteps of the Man of Galilee," illustrated by 100 limelight views.
